

Viessmann boiler model numbers have changed.

Viessmann recently changed the nomenclature for North American residential oil and gas-fired boiler models. The last number in the boiler model number changed from kW to MBH. This change applies solely to the boiler naming convention. The boilers themselves have not changed. See the boiler model cross-reference chart below.

Part Number	Previous Model Number		New Model Number
B1HA278	Vitodens 100-W B1HA 26	▶▶▶	Vitodens 100-W B1HA 94
B1HA279	Vitodens 100-W B1HA 35	▶▶▶	Vitodens 100-W B1HA 125
